It all started when I was given *El Smarty*, a 2001 sorrel AQHA stallion sired by *I'll Be Smart* and out of *Especiella* by *Especial*. He produces mind, conformation, and cow! His first foals in my breeding program were born in 2022. Can't wait to see them in action!

Our breeding philosophy is that the mare is used as a horse! My mares are ridden and used to start colts, help with mules, and ranch work up until one month prior to foaling. Knowing what the mare is tells you what her foals will be!

Today, our horses are being used for training purposes, lessons, clinics, and breeding.

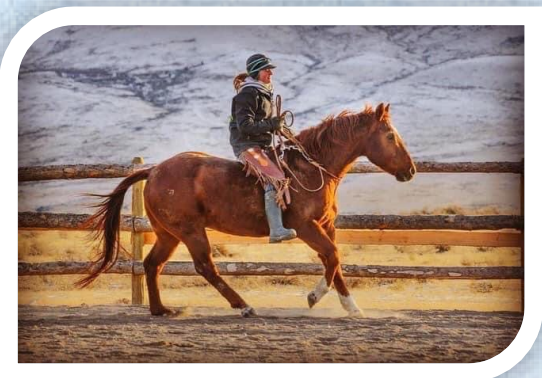

If you're looking to purchase one of our horses, we offer them available private treaty, some at production sales, or breed to our stallion, *El Smarty*.

I also offer training services for horses and mules. I'm available to start them or get them ready for upcoming sales and have thirty years of training experience. I'm available for clinics or private lessons, too.

My focus for training is in natural horsemanship and making sure the horse/human relationship is a good fit. I enjoy working with youth and helping them and all riders Elevation through Equine Education.

Mules are another passion. I start and train them with an understanding of their uniqueness.

I am available to do clinics, lessons, and training for horse, human, and mule
